

CHAPTER 105*
REGISTERED AMUSEMENT DEVICES

481—105.1(10A,99B) Definitions. Definitions in rule 481—104.1(10A,99B) are incorporated by reference in this chapter. In addition, the following definitions apply to the possession and use of registered amusement devices.

“Distributes” means to deliver, to provide or to otherwise make available in Iowa amusement devices required to be registered in accordance with these rules.

“Operation” means that a registered amusement device is made available for use by the public or made available for use on the premises of a social or charitable organization.

“Organization” means an entity that meets the requirements of Iowa Code section 99B.7(1)“m.”

“Owner” means any person who owns an operable registered amusement device. Each registered amusement device shall be registered in accordance with these rules before the device is made available for use by a member of the public or for use on the premises of a social or charitable organization.

“Person” means a person as defined by Iowa Code section 4.1.

“Premises” means a location where one or more registered amusement devices are available for public use.

“Prize” means a ticket(s) or token(s) that is dispensed by a registered amusement device as an award for use and that is worth up to \$5 in merchandise.

“Registered amusement device” means an electrical and mechanical amusement device in operation subject to registration by the department pursuant to Iowa Code section 99B.10 as amended by 2003 Iowa Acts, chapter 147, section 1(4), and includes both the external and internal components. Any change in the registered amuse device, including the external and internal components of the registered amusement device, constitutes a new registered amusement device for which registration by the owner is required. The word “change” as used herein does not include repairs or replacement of parts that do not change or alter the operation of the device as originally registered by the owner. If the repairs or replacement parts alter the operation of the device as originally registered, then the device must be re-registered before it is made available for operation.

“Registered amusement device distributor” means any person who distributes an amusement device required to be registered in accordance with these rules, whether by sale, lease, or any other arrangement or contract, written or oral, whereby an amusement device required to be registered in accordance with these rules is made available for operation in Iowa. For purposes of this definition, a social or charitable organization licensed under Iowa Code chapter 99B is not a distributor unless the organization is engaged in the business of distributing registered amusement devices. A registered amusement device distributor is required to register all machines in operation owned by the distributor.

“Registered amusement device manufacturer” means a person engaged in business in this state who originally produces registered amusement devices or individual components for use in registered amusement devices.

“Registered amusement device manufacturer’s representative” means a person engaged in business in this state who promotes or sells registered amusement devices or individual components for use in a registered amusement device on behalf of a registered amusement device manufacturer.
